ASIA'S
HIDDEN
EDEN

The garden space is being continually reinvented to becoming a gathering well of communities and families engaging in our tropical outdoors - to feel the sun on our faces, the earth between our toes and fingers and the salty sweat cleanse our pores. We no longer are just a showcase garden for the casual visitor but through our vibrant Spice Fam membership, offer experiences and a rich calendar of events in the areas of wellness, nature play for kids, ecological talks and dance nights in the jungle to name a few.

BACKGROUND OF TROPICAL SPICE GARDEN

Inspired by Penang's legacy as a spice island, the award-winning Tropical Spice Garden is a living repository of spices and other tropical plants that have been cultivated throughout human history since November 2003.

Set in a shaded valley overlooking the sea and surrounded by rainforest, the 5 acre garden is also haven for birds, insects, mammals, and reptiles, offering amazing opportunities for photography and nature education.

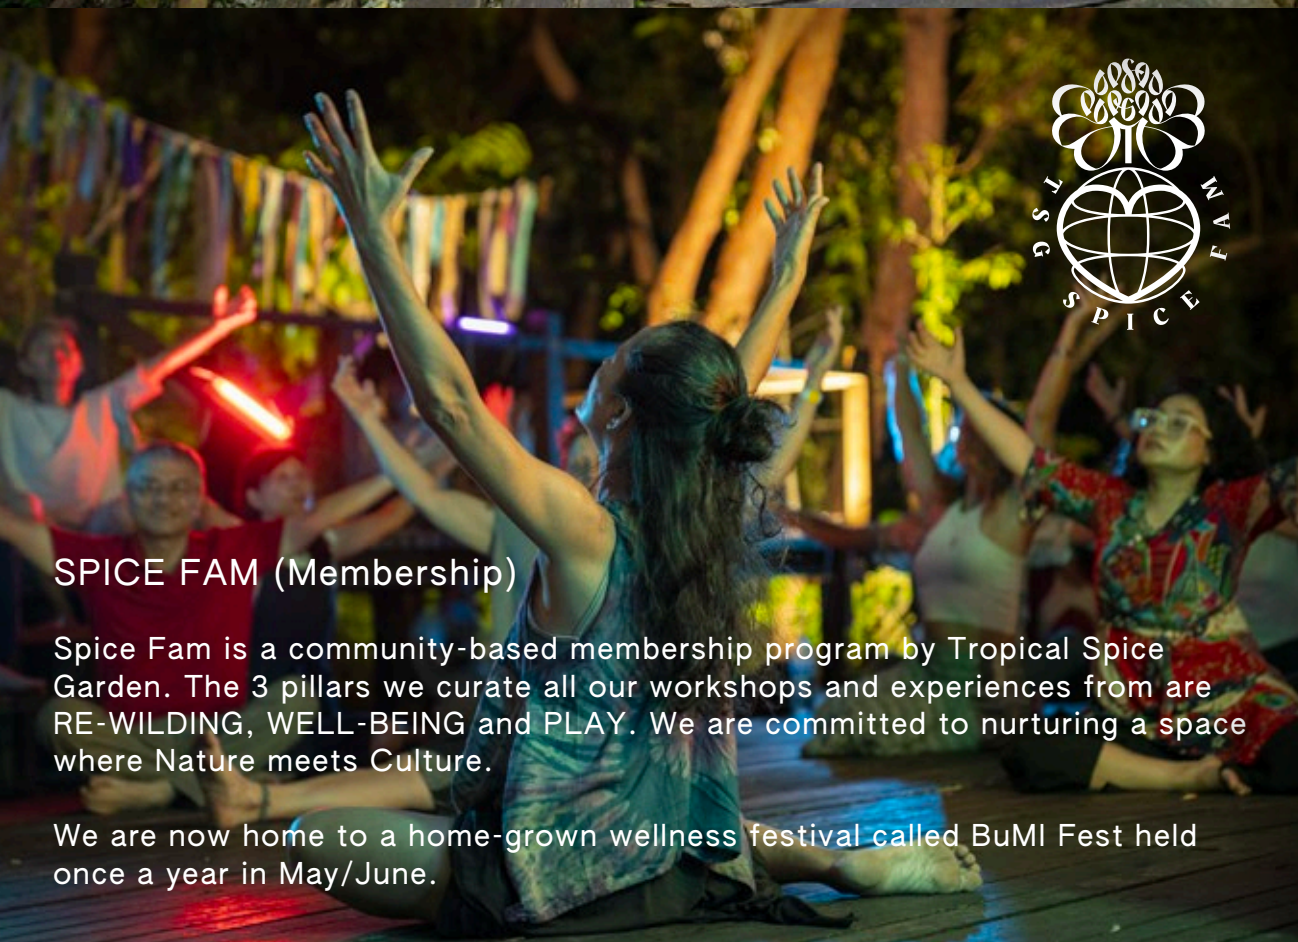

Visitors are invited to use all five senses to appreciate the rich yet tranquil environment. Highlights of the garden include: the Spice Terraces, the Heart of the Garden, the Bamboo Garden, the Giant Swing, Beverages of the World, the Poison Garden.
